

PANTHER

SPIRIT

RICKY LYNN MORRISON

Panther Spirit

DEDICATION

In recognition and sincere appreciation of his unselfish willingness to work and to better the students of Gorman schools, to do what needs to be done and to breathe life even into Geometry proofs and quadratic equations, the 1978 edition of the Panther Spirit is proudly dedicated to Milton Jensen.

Alma Mater

Oh, our hearts with joy are filling
 As our high school colors wave,
 And our spirits strive with rapture
 As we see our boys so brave.
 Fight for victory!
 Fight for honor!
 Show your spirits as so true,
 And we will win this battle
 For our dear old red and blue!

Lissa, don't cry. . .

Hey mom . . . I made it!

S-P-I-R-I-T

Concentrate, Dee!

Kissing Cuzins?. . .

Let's go sis!!!

High School

WHO'S WHO

Scholarship

Darla Good, Soph., Randy Green, Sr., Kristy Barnett, Fresh., Debra Barnett, Jr.

Citizenship

Randy Green, Sr., Darla Good, Soph., Susan Snider, Fresh., Sarah Jo Porter, Jr.

ROSS WILSON: GORMAN, TEXAS

Assistant Manager
B.D. Green, Gorman, Texas; Secretary-Treasurer

Over thirty years of Continuous Service to Peanut Growers in Southwest States of:
Texas, Oklahoma, New Mexico, Arkansas, Arizona, Louisiana, and California.

Serving all peanut producers of the Southwest by:

Making the peanut price support program available to the area.

Working for valuable national and state legislation.

Assisting in the promotion of Southwest Spanish and Runner Peanuts.

Aiding research through publicity, personal contacts, and contributions.

Keeping producers informed of the latest production development through the "NEWS" and grower meetings.

Over \$4,800,000.00 in cash dividends paid back to grower members since 1937.

George Simmons, R.Ph.

How long do you think it takes to plan and build a power plant? Two years? Four years? Eight years?

If you guessed eight, you're right. Eight years to locate and purchase the right site, order equipment, plan and build a lignite-fueled power plant, obtain approvals from all regulatory agencies, and then test the plant's operation carefully. It takes even longer for a nuclear-fueled plant — 10 to 12 years.

Right now Texas Electric is having to build expensive new plants that generate electricity with coal and nuclear fuel.

This way, in the years ahead, your generation will have the electricity it needs for a lot of important things—homemaking, jobs, education, health care and cleaning up the environment.

Building these plants is something we have to do, so that when the need is there tomorrow, the electricity will be there, too.
